7. Closing the Loop: Review of Previous Assessment Findings and Changes

A. What is at least one change your program has implemented in recent years as a result of previous assessment data?

While the program has implemented several changes in recent years, the most significant change was the implementation of a new assessment tool in 2018. This tool was designed to measure student learning outcomes more effectively and was implemented in all courses. The results of this assessment tool have been used to inform course content and teaching techniques, leading to improved student learning outcomes.
